

FAHDIEL MANUEL - RESUMÈ

Address : 245 Langvlei Dunes, Wilderness 6560, Western Cape

Email address : Fahdiel@auraholdings.co.za

Cell no : 0824963741

ID no : 6006185225084

Currently, I am semi-retired, still involved in business and community development. I offer a set of skills gained from my business and community experience, with special strengths in understanding good governance, accountability, project management and community liaison.

Core Competencies that I can offer an organisation:

- Ensuring high level of corporate governance, financial and organisational oversight at board and organisational level.
- Assisting with Strategic Planning and Strategic growth of organisations.
- Imparting knowledge garnered over the years in Management and Project management.

Presently :

I serve in the capacity as **Shareholder and Executive Director at Rainbow Place Properties**, the developers of Blue Mountain Residential Estate and the Eden Meander Precinct. These are housing, commercial and office park developments in George, one of which houses the SARS Offices in George.

I am presently also involved with the Kleinkrantz Natures Valley Community Forum (KKNVCF), an initiative to serve the informal settlement of Kleinkrantz. I serve on the Board and am actively involved in some of the ground level projects.

Personal passions :

My personal passions are in nature conservation and sustainable living. I am currently able to give expression to this on my own property on Langvlei Dunes, Wilderness, where, over the past 15 years:

- I am involved on the various committees of the Residential Association to ensure responsible living;
- I grow vegetables, indigenous plants, bee keeping and proteas.

Governance :

With regard matters of governance, besides having the responsibility of governance in my own businesses, I served as :

- Chairperson and board member of the Body Corporate of Blue Mountain Residential Estate and Eden Residential Estate.
- Committee member of the Residential Association of Langvlei Dunes
- Trustee for the George Botanical Society.

While serving in these capacities, I often acted as a key liaison person with the George Municipality with great success without compromising governance and legal compliance matters.
